Kirsten combines a strong academic foundation in property and science with practical experience in building surveying. As an Assistant Building Surveyor at CS&R, she plays an integral role in conducting detailed inspections and supporting project teams to deliver accurate reporting and ensure compliance across all projects.

Kirsten graduated from the University of Auckland in 2024 with a Bachelor of Property and a Bachelor of Science. Her dual qualifications provide a unique perspective on building performance and sustainability, enabling her to approach projects with precision and innovation.

Her professional interests include property analysis, compliance standards, and advancing best practices in building surveying. Kirsten is committed to delivering high-quality outcomes that meet client expectations and industry benchmarks.
