AUCKLAND UNIVERSITY OF TECHNOLOGY

- Bachelor of Architecture and Future Environments
- Certificate in Science and Technology

CLIENTS REPRESENTED

- Smales Farm
- Friedlander and Co
- Extensive Body Corporates
- Viranda Holdings Ltd
- George Weston Foods Ltd

Cody brings a strong foundation in architecture and practical experience in construction consultancy to the CS&R team. Over the past 4 years, he has worked across various aspects of the industry, starting with Premises Condition Reports and progressing to Schedule of Condition and project management.

His first major project management role involved a \$50 million structural upgrade and fit out of a commercial building in Auckland. Since then, Cody has contributed to multiple multi-unit recladding projects, demonstrating his ability to manage complex tasks and deliver high-quality outcomes for clients.

Cody graduated from Auckland University of Technology (AUT) with a Bachelor of Architecture and Future Environments and also holds a Certificate in Science and Technology. His professional interests include building performance, project coordination, and innovative construction practices.

SIGNIFICANT ASSIGNMENTS

- Target Road - Reclad - \$10.1 million
